Comments: _____
Ovation® is not contracted with all insurance companies; payment in full is due at the time of service.

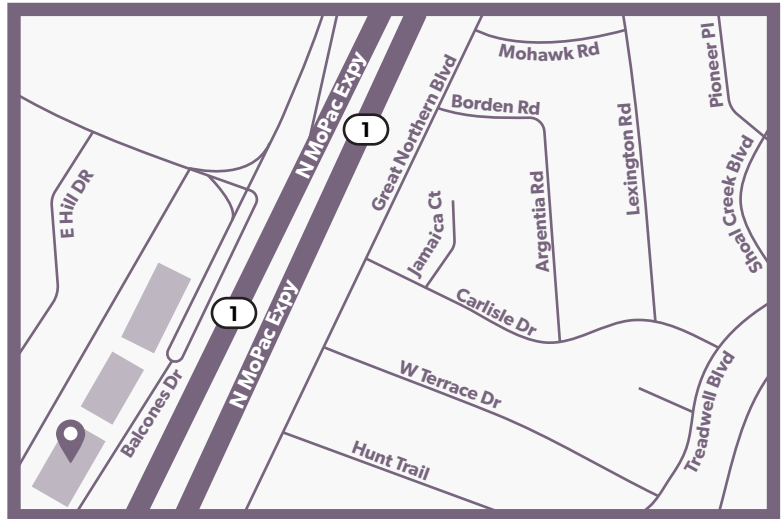

Instructions:

- Please call the laboratory at 512.610.7474 to schedule your appointment. Without an appointment, specimens will not be tested.
- **The male patient must be present at Ovation for the first appointment.**
- Specimens may be collected at home or at our Mopac, Davis Lane or Round Rock locations. For home collection, specimens must be collected in a sterile container provided by Ovation.
- It is recommended that you have an ejaculation two to five days prior to your visit.
- The specimen must be provided by masturbation only.
- Use only lubricant provided by Ovation or your physician (no saliva or other lubricant).
- The specimen container must be appropriately labeled using the label provided by Ovation.
- If you are not collecting at Ovation, keep the specimen container at room temperature for transportation to Ovation.
- The specimen must be delivered to Ovation within one hour after collection.
- A valid photo ID is required. Specimen accepted only from patient or partner.

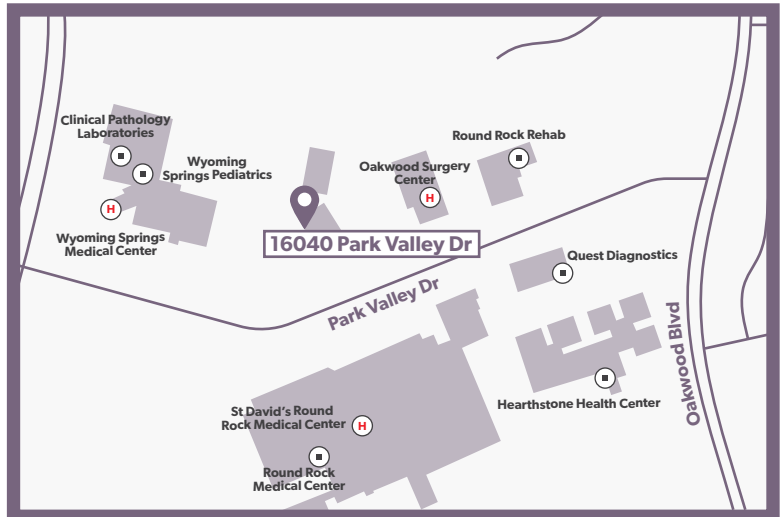

Laboratory sites: **When scheduling your appointment, please inform the office staff of your preferred location.**

Sperm Cryopreservation and Sperm Banking

Sperm cryopreservation is a procedure to freeze and preserve sperm cells for future use in IUI or IVF cycles. Sperm cryopreservation allows patients to have sperm available for their IUI or IVF procedure in the event that a male partner is unable to provide a sperm sample on a particular day.

Sperm cryopreservation is recommended if your partner:

- Travels often or lives out of town
- Has unpredictable or limited availability
- Has difficulty or anxiety about producing/collecting a semen sample

Appointments are required for all sperm freezes.

Please call Ovation® at 512.610.7474 as soon as possible to schedule your sperm cryopreservation appointment. Appointment times are limited, so please call in advance to get your partner scheduled.

- The male patient must be present at Ovation for the first appointment
- Andrology order form (request from your nurse)
- Completion of required Ovation documents
- Infectious disease screening (IDS) results within the past 12 months

****IDS results are required prior to freezing****

Please contact your Texas Fertility Center nurse at 512.451.0149 to obtain the andrology order form and confirm if your infection disease screening results are current. You may need labs drawn again if your IDS results are more than 12 months old.
